February 19-21, 2016

William Pitt Union: Ground Floor

You can make great projects, regardless of your skill level.

What if I’m new to coding and engineering?
We will host workshops in the weeks prior to the event to make sure that everyone gets the chance to learn the skills that they will need to succeed.

What do people usually do at hackathons?
Build cool things, make new friends, network with professionals, drink tons of coffee, stay up all night, but mostly, they have fun!
